# Money as Debt

## MOVIE

Ever wonder why banks have so much money and everybody else has so much debt?

Paul Grignon's engaging 47-minute animation answers the question that is never asked in school or in the media.  
"Where does money come from?"

*"the best introductory DVD which has yet been produced on the subject of Money Reform... This very competently animated production captures the absurdity of our money as debt system like no other production before now. It illustrates clearly that our medium of exchange is created as a debt and if everyone paid back their debts, we would have no medium of exchange!"*  
~ Alistair McConnachie, Prosperity UK

Friday 9<sup>th</sup> May 19:30

Liskerrett Community Centre

Admission £2.00 or donation, refreshments provided
