## PEAK OIL, CLIMATE CHANGE, RECESSION...

**worried? feeling helpless? want to feel inspired??**  
come to a meeting at the **Random Arms**, Maker Heights  
**Wednesday 29th April at 7.30pm**

to see the film “The Power of Community; How Cuba Survived Peak Oil” and to discuss making ourselves and our community more resilient in the face of the changes that are coming, including setting up our own Transition Initiative (what’s that? - come and find out) to find local solutions to global problems. Suggestions so far – a veg garden scheme and skills workshops to share traditional skills, such as smithing, and ‘new’ ideas such as permaculture.

For more information contact Sophie GB on 07779 297205 or Pete D on 07905 375570, or visit [www.transitioncaradon.org.uk](http://www.transitioncaradon.org.uk), a community initiative for change

*“The uncertainty of our times is no reason to be certain about hopelessness.”- Vandana Shiva*
